THE SEXUALISATION OF OUR CHILDREN HAS BEGUN

The World Health Organization (W.H.O.) and the United Nations (U.N.) are instructing education authorities worldwide to encourage children to start experimenting with sex as young as possible. They are openly promoting the following to be taught to our young children:

- Masturbation
- Pornography
- Sexual Techniques
- Encouragement of minors to engage in same sex relationships

EVERY PARENT/GRANDPARENT MUST RESEARCH THIS

According to the WHO's Regional Office for Europes Standard for Sexual Education the following is to be taught in classrooms all over the world.

0 - 4 year-olds	Enjoyment and Pleasure when touching one's own body, Early Childhood Masturbation.
4 - 6 year-olds	Sexual Feelings (closeness, enjoyment, excitement) as a part of all Human Feelings.
6 - 9 year-olds	Enjoyment and Pleasure when touching one's own body (masturbation/selfstimulation). Appropriate Sexual Language, Sexual Intercourse.
9 - 12 year-olds	First sexual experience, Gender orientation, Differences between gender identity and Biological Sex.
12 -15 year-olds	Role Expectations and Role Behaviour in relation to Sexual Arousal and Gender Differences, First Sexual Experience.

UN International Technical Guidance on Sexuality Education

5- 8 year olds - Masturbation Sexual Activity	**Key Ideas:** Everyone has the right to decide who can touch their body, where, and in what way. People can show love for other people through touching and intimacy.
9-12 year olds - Masturbation Sexual Activity Pornography	**Key ideas:** Human beings are born with the capacity to enjoy their sexuality throughout their life. It is important to be able to make informed decisions about sexual behaviour, including whether to delay sex or become sexually active.
12-15 year olds - Fantasies Sexual Activity Pornography	**Key Ideas:** Everyone has the right to be in control of what they will and will not do, sexually. Sexual feelings, fantasies and desires are natural - demonstrate ways to manage emotions related to sexual feelings, fantasies and desires. People have a sexual response cycle, whereby sexual stimulation (physical or mental) can produce a physical response.
